QA-HEVET ERASMUS+ PROJECT: ⬇

Developing robust quality assurance systems is essential for both Higher Education Institutions (HEIs) and Vocational Education and Training (VET) Providers to develop high-quality and inclusive education and training and respond appropriately to labour market demands. Despite some similarities, there is currently no systematic exchange between the two systems. Therefore, the QA-HEVET project aimed to investigate the strengths, weaknesses and competitiveness of both quality frameworks, to develop common quality indicators, and to design practical digital instruments for assessing quality assurance.

THE GOAL OF THE CONFERENCE

It is to show the main conclusions from the QA-HEVET Erasmus+ project, especially:

- To present the challenges of aligning quality assurance systems in higher education and vocational education and training;
- To show differences, similarities, strengths and weaknesses of Standards and Guidelines for Quality Assurance in the European Higher Education Area (ESG) and the European Quality Assurance in Vocational Education and Training (EQAVET) frameworks and their implementation in the partner countries;
- To display recommendations for aligning ESG and EQAVET systems resulting from the project research;
- To introduce the Quick Scan Tool for VET Providers and HEIs developed within the Project, which aims to support them in increasing their institution-wide commitment, policy and action plan for continuous improvement.

AGENDA

1. Welcome
Mariusz Hamulczuk - SGGW

2. Project Overview
Katarzyna Czech - SGGW

3. Quality Assurance in the European Higher Education Area (ESG) and the European Quality Assurance in Vocational Education and Training (EQAVET) frameworks
Ali Rashidi – Folkuniversitetet
Luiza Ochnio – SGGW

3. Recommendations for potential alignment the ESG and EQAVET systems
Esraa Salim – Folkuniversitetet

4. Quick Scan Tool for VET Providers and HEIs – practical digital instruments for quality assurance
Areti Fourgkatsioti - Dimitra
